

REMARKS

Responsive to the requirement for election of species, applicants hereby elect the species of Figure 1. Claims 1, 2, 3, 4, 6, 7 and 8 are deemed to read on the elected species.

The obvious clerical errors noted by the Examiner on page 17 of the specification have been corrected, as well as an additional error appearing on line 23 of that same page. The assistance of the Examiner in calling these clerical errors to applicant's attention is greatly appreciated.

The objection to claim 6 is respectfully traversed. Antecedent basis for the doorway recited in claim 6 is found, *inter alia*, in line 1 of claim 1, from which claim 6 depends through claim 2. No door is claimed in claim 6, and thus antecedent basis for a door is not needed. For clarification, claim 6 has been amended to recite that the development of a clearance is prevent when the doorway is "open". A doorway may, of course, be open, whether or not a door is provided. Withdrawal of the objection is respectfully requested.

In view of the foregoing, the application is respectfully submitted to be in condition for allowance, and prompt, favorable action thereon is earnestly solicited.

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned at (202) 624-2845 would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and
